BUILDING FEATURES

Distrik Trailside West is part of a master-planned community. The West phase includes a ten storey building with two blocks of single and two storey executive suites designed by Kirkor Architects.

- Spectacular indoor amenity and suite features by award-winning interior design firm figure3
- Outdoor amenity spaces and rooftop designed by landscape architect Adesso Design
- The lobby includes a 24 hour concierge, double-height ceilings, and two feature fireplaces
- Located just off the lobby is the property management office and a convenient parcel storage system and mail room
- The ground floor amenity space includes a pet washing station and a double height fitness studio equipped with state of the art weights and universal cardio equipment, as well as ample indoor and outdoor spaces to do yoga and Pilates
- On the 6th floor there is an extensive residents' amenity space featuring a chef kitchen, private dining room, a separate lounge with fireplace, and a games room. The fireside lounge and bar extends to a beautiful outdoor terrace featuring two barbecues and both a trellised dining area and several lounge spaces, surrounded by expansive views of Oakville, Glade side Pond and the nearby lush greenery
- Ample underground parking for all residents and surface parking for visitors
- Extensive bicycle parking for residents, located on the main floor

INNOVATIVE FEATURES

- LED lighting throughout the building. Energy efficient, long lasting and low maintenance
- Exclusive selection of low volatile organic compound (VOC) paints, sealants, and adhesives, including carpet and underlay (as applicable)
- High-performance mechanical systems to ensure the building performs efficiently while providing optimal comfort in all conditions
- CO2 controlled ventilation in amenity spaces to ensure efficient and comfortable control of air quality in amenity spaces
- Electric Vehicle (EV) charging infrastructure in parking garage where applicable
- CO controlled ventilation in the parking garage to ensure efficient and safe control of air quality within the garage
- Building Automation System (BAS) to monitor, control, and ensure efficient and comfortable operation of common area HVAC, lighting and safety systems
- Wi-fi available in all amenity spaces including parking garage
